pavelux®

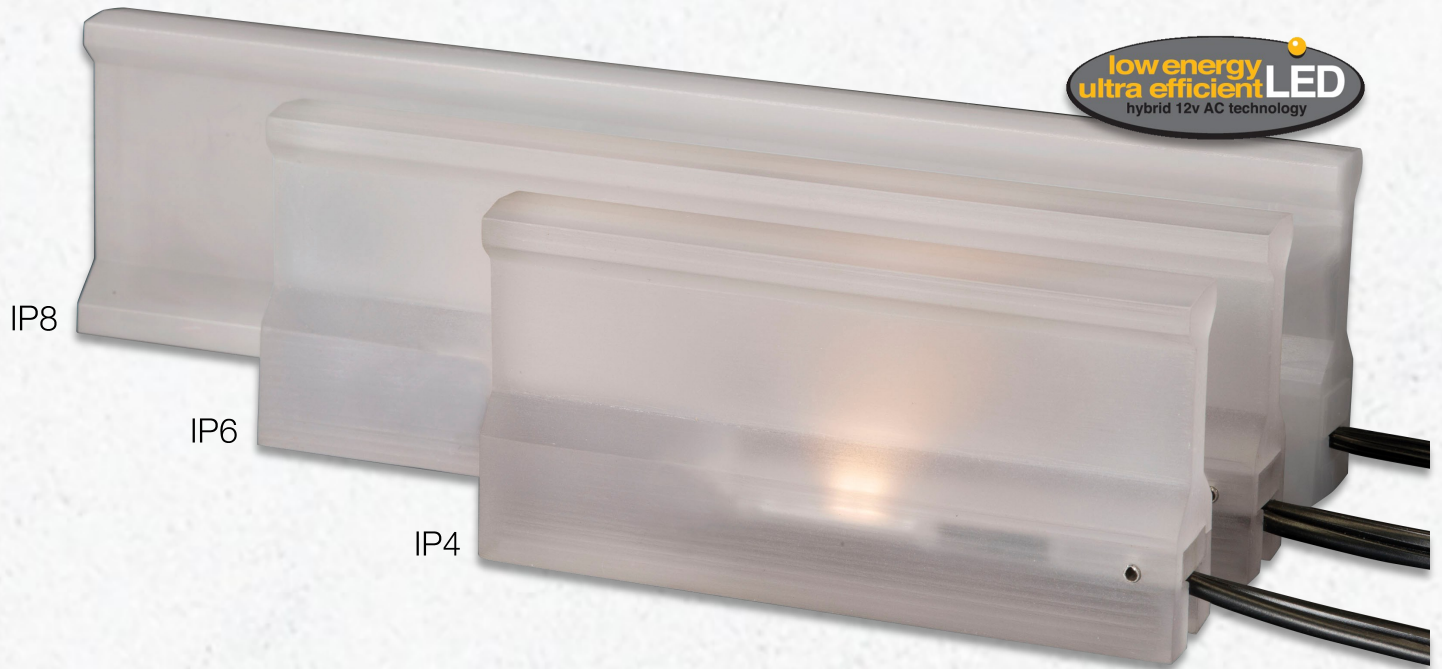

LED paver lighting inserts quickly and discreetly
into your hardscape accent border

The next generation of paver lighting is now available. Pavelux® has a minimalist design molded from UV resistant polycarbonate for durability as strong as your stone surface. Choose from three standard lengths and two choices of popular LED color outputs.

Our design is intentionally simple, allowing for insertion between pavers and requiring no cutting or drilling for installation. The fixture itself is virtually invisible during the day, reducing impact on your design without sacrificing lighting effects at night.

- › Perfect for all segmental hardscapes, brick, bluestone and more
- › Ultra efficient LED is 12vAC magnetic or electronic transformer compatible
- › IP67 rated for wet locations
- › No batteries or sockets to fail or replace
- › No metal parts to corrode
- › No buried connections in your stone base

Pure White LED

IP4.100.500

1 watt LED 3000K
